DETAILED ACTION

1. The Applicants' amendment filed on June 23, 2005 was received. Claims 6-20 deleted. Claims 1, 3-4 and 21 are amended. Claim 22 is added. Now, Claims 1-5 and 21-22 are pending.

2. The text of those sections of Title 35, U.S. code not included in this action can be found in a prior Office Action (Paper No. 061105).

Claim Objections

3. Claims 1-5 and 21-22 are objected to because of the following informalities:

In the formula in Claims 1, 3 and 21, should "u" be removed?

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 1712

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 21-22 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the use of an aromatic-based siloxane containing the substituted phenyl groups recited in pages 8 and 10, does not reasonably provide enablement for the use of an aromatic-based siloxane containing any substituted aromatic groups. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

7. Claims 1 and 3 would be allowable if rewritten or amended to overcome the claim objection, set forth in this Office action.

None of Toyoshima (US 4 954 586) and Broer (US 4 718 748) teaches or fairly suggests a siloxane macromonomer having the specific aromatic-based substituents set forth in the present invention.

Art Unit: 1712

8. Claims 2 and 4-5 would be allowable if rewritten to overcome the claim objection, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The patentability of the instant claims is described in the previous paragraph.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
